SECTION 00800

SPECIAL CONTRACT REQUIREMENTS

PART 1 GENERAL

1.1 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)  
FAR 52.211-10

The Contractor shall be required to commence work under this contract within 15 calendar days after the date the Contractor receives the notice to proceed, prosecute the work diligently, and complete the entire work ready for use not later than 135 consecutive calendar days after receipt of notice to proceed. The time stated for completion shall include final cleanup of the premises.

NOTE: The completion period specified above does not include the exclusion period specified in paragraph 00800-1.2 below.

a. Access to the Site

(1) River Access - It is anticipated that access to the site for accomplishment of the work shall be from floating plant. The Contractor shall verify water depths and water depth variations, be responsible for investigating suitable landing location(s), and be responsible for all cost related to river access. The Contractor will be required to conduct the work in such manner as to obstruct navigation as little as possible, and in case the Contractor's plant so obstructs navigation as to make difficult or endanger the passage of vessels, said plant shall be promptly moved on the approach of any vessel to such an extent as may be necessary to afford a practicable passage.

(2) Land Access - Land access rights-of-ways are not provided by the Government. Land access to the site shall be at the Contractor's responsibility. Land access shall be investigated by the Contractor to satisfy itself as to its existence and allowable use and shall bear all costs related to their development and use.

The Contractor, before commencing any work at the site, shall obtain all rights of entry agreements necessary for land access to the work site. A copy of all agreement documentation (signed by the Contractor and applicable parties) shall be provided to the Contracting Officer.

At all times during construction, the Contractor shall maintain the pre-construction level of protection of the levee. In addition, in the area of the levee that the Contractor will be crossing, the Contractor shall conduct pre and post surveys. The pre and post surveys shall be at the same location and intervals, with the intervals and location being approved by the Contracting Officer. Any degradation or damage to the levee shall be repaired at the Contractor's expense as directed by the Contracting Officer.

b. The operation of the lock and dam shall not be obstructed. The Contractor shall fully schedule and coordinate its work with the Lockmaster (see Section 01100, paragraph entitled, "COORDINATION WITH OTHERS") so that the Contractor's work does not interfere with the operation of the lock and dam.

c. The Contractor shall not expose more than 200 feet (from Illinois side) of the submersible dike at a time, and shall complete all work within the 200 foot section before proceeding to the next consecutive section, unless otherwise approved in writing by the Contracting Officer. Work on only one section at a time will be allowed, unless otherwise approved in writing by the Contracting Officer.

d. Any new or existing structure or facility damaged as a result of the Contractor's operations shall be repaired or replaced at the Contractor's expense as directed by the Contracting Officer.
