

**DEFINITE PROJECT REPORT  
WITH INTEGRATED ENVIRONMENTAL ASSESSMENT**

**SECTION 206  
LAKE BELLE VIEW  
AQUATIC ECOSYSTEM RESTORATION PROJECT**

**CONTENTS**

<b>1. Introduction .....</b>	<b>1</b>
1.1. Purpose of Report .....	1
1.2. Project Authorization and Scope .....	1
1.3. General Project Planning .....	1
<b>2. Existing Resources .....</b>	<b>5</b>
2.1. Resource History .....	5
2.2. Land Use and Infrastructure .....	5
2.3. Aquatic Resources .....	7
2.4. Terrestrial and Wetland Resources .....	8
2.5. Fishery Resources .....	8
2.6. Historic and Cultural Resources .....	8
2.7. Water Quality .....	9
2.8. Endangered Species .....	11
2.9. Hazardous, Toxic, and Radioactive Waste (HTRW) .....	11
2.10. Sedimentation .....	11
2.11. Habitat Needs Assessment .....	11
2.12. Related Studies and Efforts .....	12
<b>3. Project Goals, Objectives, and Potential Features .....</b>	<b>13</b>
3.1. Problems and Opportunities .....	13
3.2. Future Without Project .....	13
3.3. Resource Significance .....	13
3.4. Management Goals and Constraints .....	15
3.5. Project Goals, Objectives, and Features .....	16
3.6. Proposed Features .....	16
<b>4. Potential Measures .....</b>	<b>19</b>
4.1. General .....	19
4.2. River Diversion .....	19
4.3. Wetland Enhancement .....	23
4.4. Periodic Drawdown .....	24
4.5. Fish Passage Structures .....	25
4.6. Rough Fish Control .....	29
4.7. Sediment Removal .....	30
<b>5. Project Alternatives .....</b>	<b>33</b>
5.1. Formulation of Alternatives .....	33
5.2. Description of Alternatives .....	34

<b>6. Evaluation of Project Alternatives.....</b>	<b>41</b>
6.1. General .....	41
6.2. Environmental Outputs.....	41
6.3. Cost Estimates .....	43
6.4. Alternative Comparison.....	46
6.5. Recommended Plan .....	48
6.6. Resource Significance .....	49
6.7. Reasonableness of Costs.....	49
<b>7. Recommended Plan .....</b>	<b>50</b>
7.1. General .....	50
7.2. Design Considerations.....	50
7.2.1. Dredging .....	50
7.2.2. Diversion Berm.....	52
7.2.3. Channel Excavation .....	54
7.2.4. Riffle Structures.....	55
7.2.5. Wetland Enhancement .....	55
7.2.6. Miscellaneous Design Considerations .....	56
7.3. Construction Considerations.....	56
7.4. Operational Considerations .....	57
7.5. Maintenance Considerations.....	58
7.6. Schedule for Design and Construction .....	59
<b>8. Cost Estimates.....</b>	<b>60</b>
<b>9. Environmental Effects .....</b>	<b>61</b>
9.1. Summary of Effects .....	61
9.2. Natural Resources.....	61
9.3. Endangered Species .....	62
9.4. Wetland Resources .....	64
9.5. Cumulative Impacts .....	64
9.6. Socioeconomic Resources and Human Use .....	66
9.7. Historic Properties and Cultural Resources .....	69
9.8. Probable Adverse Environmental Impacts Which Cannot Be Avoided.....	70
9.9. Compliance with Environmental Quality Statutes .....	71
9.10. Short-Term Versus Long-Term Productivity .....	72
9.11. Irreversible Resource Commitments .....	73
9.12. Relationship of the Proposed Projects to Other Planning Efforts.....	73
<b>10. Project Performance Assessment Monitoring .....</b>	<b>74</b>
10.1. General.....	74
10.2. Project Monitoring Plan.....	74
<b>11. Implementation Responsibilities .....</b>	<b>75</b>
11.1. Federal .....	75
11.2. Non-Federal .....	75
<b>12. Coordination and Views .....</b>	<b>76</b>
12.1. Public .....	76
12.2. Federal Agencies .....	76
12.3. Non-Federal and Others.....	76

**13. Recommendations .....**.....**77**

**14. Finding of No Significant Impacts (FONSI)**

**Tables**

2.1	Master planned land uses in the Belleville urban service area .....	7
2.2	Species listed, or proposed for listing, as threatened or endangered under the Federal Endangered Species Act of 1973 (as amended) that are known to occur within Dane County, Wisconsin .....	11
3.1	Project goals, objectives, and potential features .....	16
3.2	Objective accomplishments by feature .....	17
6.1	Indicator species utilized for habitat analysis using appropriate Habitat Suitability Index models .....	42
6.2	Possible migratory fishes of the Sugar River observed at or below the project site .....	42
6.3	Costs and environmental outputs of each project alternative .....	44
6.4	Incremental cost of Best Buy plans .....	47
6.5	Project goals and objectives .....	48
7.1	Recommended construction sequence .....	57
7.2	Operation and maintenance costs .....	55
7.3	Schedule for design and construction .....	59
8.1	Lake Belle View Section 206 recommended plan fully funded estimate vs. current work estimate .....	60
9.1	Species listed, or proposed for listing, as threatened or endangered under the Federal Endangered Species Act of 1973 that are known to occur within Dane County, Wisconsin .....	63
9.2	Applicability and compliance with Federal environmental protection statutes and other environmental requirements affecting the proposed project .....	71

**Figures**

ES-1	The Recommended Plan .....	ES-4
1.1	Schematic diagram of formulation process .....	3
1.2	Lake Belle View Section 206 Site Map .....	4
2.1	2000 Land Use, Village of Belleville .....	6
3.1	Land Use Plan, Village of Belleville .....	14
4.1	River Diversion Measures R1 and R2 .....	20
4.2	River Diversion Measures R3 and R4 .....	21
4.3	River Diversion Measure R5 .....	22
4.4	River Diversion Measure R6 .....	22
4.5	River Diversion Measure R7 .....	23
4.6	Wetland Enhancement Measures W1, W2, and W3 .....	24
4.7	Fish passage measures .....	26
4.8	Hydraulic sediment removal measures .....	31
4.9	Sediment Removal Measure S6 .....	32
5.1	Alternative 0, No Action .....	34
5.2	Alternative 1, Eastern Diversion with Northern Riffles .....	35
5.3	Alternative 2, Eastern Diversion with Southern Riffles .....	36

5.4	Alternative 3, Eastern Diversion with Complete Separation .....	37
5.5	Alternative 4, Western Diversion with Separation .....	38
5.6	Alternative 5, Western Diversion without Separation .....	39
5.7	Alternative 6, River Restoration with Pond Creation .....	40
6.1	All alternatives .....	46
6.2	Best Buy plans .....	47
7.1	Schematic of proposed channel slopes.....	53

## **Photographs**

1	Example of constructed riffle (from above).....	27
2	Example of constructed riffle (looking upstream) .....	27
3	Example of riffle structure over dam (before) .....	28
4	Example of riffle structure over dam (after) .....	28
5	F6 fish passage upstream (conceptual view).....	28
6	F6 fish passage downstream (conceptual view).....	28
7	Example of carp gate .....	29

## **Plates (see Appendix K)**

- Plate 1 – Location Plan, Vicinity Map, and Index
- Plate 2 – Alternative No. 1
- Plate 3 – Alternative No. 2
- Plate 4 – Alternative No. 3
- Plate 5 – Alternative No. 4
- Plate 6 – Alternative No. 5
- Plate 7 – Recommended Plan
- Plate 8 – Typical Sections
- Plate 9 – Typical Riffle Structure Detail
- Plate 10 – Proposed Dredge Cuts and Lake Berm Profiles
- Plate 11 – Potential Ag Fields for Dredged Material Placement

## **Appendices**

- A Correspondence
- B Clean Water Act, Section 404 (b)(1) Evaluation
- C Habitat Evaluation and Quantification and Incremental Cost Analysis
- D Hazardous, Toxic, and Radioactive Waste Documentation Report
- E Cost Estimate
- F Geotechnical Considerations
- G Water Quality
- H Hydrology and Hydraulics
- I Structural Considerations
- J Distribution List
- K Plates
