

# Project Factsheet for: Coralville Lake and Dam - FLOOD Supplemental O&M

Date Last Updated: 09/01/2008 08:42

## Project Location Information

**Location:** Coralville, Iowa  
**River Basin(s):** Iowa / Cedar  
**State(s):** IA  
**Congressional District(s):** IA-2 , IA-3 , IA-4

## Status

Coralville Lake and Dam is operating with reduced capabilities and closures of some areas due to flood damage. Flood Control Facilities are partially functional. Limited funding for flood damage recovery has been received.

Damage Assessments for Flood Control, Environmental Stewardship and Recreation and are just starting as on the week of August 25, 2008.

## Description

Coralville Lake is a multiple purpose project providing primary benefits in flood control and low-flow augmentation and secondary benefits in recreation, fish and wildlife management, forest management, and water quality improvement. Conservation pool is 4,900 acres; and the flood control pool is 24,800 acres with 475,000 acre-feet of storage. The dam is located on the Iowa River just upstream of Iowa City, Iowa. Cumulative damages prevented since project's inception (1958) = \$68,462,000. The project includes 24,591 acres of fee title lands and there are 11 recreation area sites. FY07 recreation fee receipts and lease revenues were \$497,200. Regional economic impact of project visitation is \$21,000,000.

Coralville Lake and Dam experienced major flooding during Spring and Summer 2008. The flooding caused damage to facilities, buildings, and grounds throughout the project.

## Major Work Item (This Fiscal Year)

Damage Assessments

## Major Work Item (Next Fiscal Year)
