

Project Factsheet for: Installation Support for Louisville District, Kentucky

Date Last Updated: 02/13/2009 14:28

Project Location Information

Location: Rock Island Arsenal, Rock Island, IL
River Basin(s): Mississippi
State(s): IL
Congressional District(s): IL-17

Status

The purpose of this fact sheet is to provide a summary of Installation support that the U.S. Army Corps of Engineers, Rock Island District, is providing to the U.S. Army Corps of Engineers, Louisville District. This Installation support is generally provided to the Rock Island Arsenal, co-located with the Rock Island District.

Description

Louisville District is the military support district for the State of Illinois (which includes Rock Island Arsenal). Louisville District has partnered with the Rock Island District since 1982 concerning military installation support for this installation. Under this Partnership, Rock Island District has typically provided 10-20 sets of construction plans and specifications per year, feasibility studies, periodic inspections, technical advice, reviews, reports, and master planning.

A wide range of military projects have been designed and constructed by the Rock Island District in support of Louisville. Typical projects have included all types of roof replacements and repair, building renovation (both interior and exterior), HVAC systems, security systems, fire protection systems, landscaping, drainage, paving, power supply (both primary and standby), pump stations (both storm and sanitary), water treatment and supply systems, offices, medical facilities, asbestos and lead paint removal projects, classroom facilities, window replacement and other energy conservation projects.

The partnership between Louisville and Rock Island District has been successful. Both organizations have established procedures that ensure the Customer receives the best service for the least cost.

The Rock Island District has continued to support the Arsenal during the current FY for similar services. This will be continued in FY 10. The main functional services include engineering and technical support. Business processes and integration of DPW workloads with the District continue to improve.

Summarized Financial Data

Rock Island Arsenal is expected to provide approximately \$250K for Rock Island District support this fiscal year. The money will be for District labor expenses related to RIA projects.

Rock Island Arsenal also provided approximately \$1.4M for housing lease support provided by the Rock Island District Real Estate Office. The District leased fifty housing units for military personnel assigned to Rock Island Arsenal.

Authority

SI - Special Interest --
