

# Project Factsheet for: Mississippi River - FLOOD Supplemental O&M

Date Last Updated: 08/29/2008 14:46

## Project Location Information

**Location:** Upper Mississippi River from Lock 11 to Lock 22  
**River Basin(s):** Mississippi  
**State(s):** IA , IL , MN , MO , WI  
**Congressional District(s):** IA-1 , IA-2 , IA-3 , IL-16 , IL-17 , IL-18 , IL-19 , MN-1 , MO-9 , WI-3

## Status

All Lock and Dam facilities are operable with some restrictions due to damages sustained. Assessment of damages at navigation and recreation facilities is ongoing.

## Description

The project consists of a 314-river mile reach of 9-foot commercial navigation channel from Guttenberg, Iowa, downstream to Saverton, Missouri. It includes 14 locks and 11 dams (L/Ds) at 12 sites from Lock 11 to Lock 22. The navigable portions of this river and the locks and dams that allow waterway traffic to move from one pool to another are integral parts of a regional, national, and international transportation network. Recreation facilities include 25 public recreation areas and the Visitor Center located at Locks and Dam 15.

The Upper Mississippi River experienced major flooding during Spring and Summer 2008. Many Rock Island District Lock facilities were closed to navigation for several weeks due to the high river stages. The flooding caused significant damage to facilities, buildings, and grounds at L/D sites, particularly from L/D 16 to L/D 22. L/D 20, located in Canton, Missouri, sustained especially severe damage. Recreation facilities were also heavily impacted.

## Major Work Item (This Fiscal Year)

Multiple Lock and Dam Site Damage Assessments  
Multiple Recreation Site Damage Assessments

## Major Work Item (Next Fiscal Year)

Continue Site Damage Assessments

L/D 20 Storage Yard Damage Repairs  
L/Ds 21 and 22 Storage Yard Damage Repairs  
L/D 18 Storage Yard Damage Repairs

## Authority

OM - Operations and Maintenance --
