<sup>1/</sup> Continuing Authorities Program projects are not individual line items in the President's Budget unless specifically named.

**LOCATION AND DESCRIPTION:** East Boyer River is in Denison, Iowa. Due to the passage of the FY06 Energy and Water Development Appropriations Act, 2006 limiting the use of the continuing contract clause, and only one interested bidder with the initial advertisement at the end of the first quarter of FY06, the Corps has re-advertised the construction contract for a Spring 2006 award. The contract is for a right bank levee along the East Boyer River. The project will alleviate recurring flooding problems experienced by the City of Denison.

**PROPOSED ACTIVITIES FOR FY 2006:** Continue the construction contracting activities, award and proceed to construction.

**APPLICATION OF THE AMOUNT THAT COULD BE USED IN FY 2007:** Complete construction and proceed with project turnover to the City of Denison.

**ISSUES AND OTHER INFORMATION:** Current fiscal year is limited to the \$1,386,000 named in the 2006 Energy and Water Development Appropriations Act, (H.R. 2419). This amount is insufficient to fully fund the construction contract award. Re-advertisement of the construction contract resulted in a base contract with options on incrementally funded segments to eliminate the need for the continuing contract clause as originally planned.

**ADMINISTRATION POSITION:** This work is consistent with Administration policy.

**CONGRESSIONAL INTEREST:** Senators Harkin (IA) and Grassley (IA) and **Representative Steve King, (IA-5).**
