LOCATION AND DESCRIPTION: The Perry Creek basin is located in Woodbury and Plymouth Counties in northwestern Iowa. The downstream 5 miles of the basin lie within the corporate limits of Sioux City, Iowa, and drain the central portion of the city. The project consists of 14,800 linear feet of grass and rock lined channel, 1,500 linear feet of new conduit, modification of 710 linear feet of existing conduit, a concrete stilling basin and a basin-wide flood warning system.

PROPOSED ACTIVITIES FOR FY 2006: Continue Phase 4 conduit and channel construction

APPLICATION OF AMOUNT THAT COULD BE USED IN FY 2007: The capability amount of \$1,500,000 would be used to complete the Phase 4 construction contract and for project closeout activities.

ISSUES AND OTHER INFORMATION: The ability to pay provisions of WRDA of 1986 has been modified by rule changes published in the Federal Register on January 26, 1995. The new provisions allow elimination of the 5 percent cash contribution if both of the following are met 1) LERRD comprise 35 percent or more of the total project cost and 2) the per capita cost exceeds \$300 per person. The city of Sioux City, Iowa meets both of the requirements to waive the 5 percent cash contribution.

ADMINISTRATION POSITION: The work is consistent with Administration policy.
