

Project Factsheet for: Macomb Mapping

Date Last Updated: 08/27/2007 16:22

Project Location Information

Location: Macomb, Illinois
River Basin(s): Illinois, Illinois
State(s): IL
Congressional District(s): IL-17

Status

Federal cost sharing funds have been received, cost share agreement signed and the study is underway.

Description

This project is located in the City of Macomb. The City of Macomb has a population of 22,040 and is located in western Illinois. The City is currently undertaking the preparation of a new comprehensive plan which will serve as a guide for future land use decisions within the City and surrounding lands. The mapping of infrastructure would greatly assist the City in appropriately identifying areas for growth, infill, development, redevelopment and the preservation of open spaces/environmental corridors. It is anticipated that the infrastructure mapping will also enable modeling related to water quality issues on the LaMoine River north of Meredosia, Illinois.

Summarized Financial Data

Federal Cost	\$47,500
Non-Federal Cost	\$47,500
Total Cost	\$95,000
Federal Allocations through FY 2004	\$
Scheduled Federal Allocation for FY 2005	\$
Balance to Complete	\$0

Major Work Item (This Fiscal Year)
