<sup>1</sup> Map(s)/Figure(s) are attached to the AJD provided to the requestor.

<sup>2</sup> If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

<sup>3</sup> A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

<sup>4</sup> Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

<sup>5</sup> Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

**D. Excluded Waters or Features**

Excluded waters ((b)(1) – (b)(12))<sup>4</sup>:

Exclusion Name	Exclusion Size	Exclusion <sup>5</sup>	Rationale for Exclusion Determination
2020-1164 Wetland Sg1a	0.06 acres	(b)(1) Non-adjacent wetland	Depressional area not near an (a)(1) through (a)(3) water.
2020-1164 Wetland Sg1b	0.03 acres	(b)(1) Non-adjacent wetland	Depressional area not near an (a)(1) through (a)(3) water.
2020-1164 Wetland Sg2	0.05 acres	(b)(1) Non-adjacent wetland	Scrub-shrub wetland located in a roadside ditch of the off-ramp of Hwy 65.
2020-1164 Wetland Sg4	0.18 acres	(b)(1) Non-adjacent wetland	Wetland formed in an excavated area, and a culvert through the berm does not form a direct hydrologic connection to an (a)(1) through (a)(3) water.
2020-1164 Wetland Sg5	0.28 acres	(b)(1) Non-adjacent wetland	Forested wetland formed in an excavated area, directly abutting Wetland Sg4 which is a (b)(1) non-adjacent wetland
2020.1164 Wetland Sg6	0.53 acres	(b)(1) Non-adjacent wetland	Emergent wetland directly abutting Wetland Sg6, a (b)(1) non-adjacent wetland

**B. Typical year assessment(s):** N/A

**C. Additional comments to support AJD:** The USGS topographic map shows an isolated impoundment water feature with no adjacent water features. The 8" culvert in the berm does not provide for a direct hydrologic surface connection to an (a)(1) through (a)(3) in a typical year. The basin was not constructed in nor is a relocated, (a)(1) through (a)(3) waters. See attachment CEMVR-OD-P-2020-1164-AJD Page 1 of 1.
