B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: The project location is on a highly disturbed site that historically may have contained hydric inclusions, however it has been the site of extensive disturbance. Most recently this site was used for mulch disposal following the 2020 Derecho. Aerial photos show years of development and other disturbance. This site is an upland and is not jurisdictional.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
