

Project Factsheet for: Coats Addition Sewage Lagoons, Des Moines River, Webster County, Iowa (CLOSED)

Date Last Updated: 09/02/2008 11:52

Project Location Information

Location: Near the village of Coalville, in Webster County, just south of Fort Dodge, Iowa
River Basin(s): Des Moines
State(s): IA
Congressional District(s): IA-4

Status

Construction has been completed. Closeout activities for the project are ongoing.

Description

Two sewage lagoons, located along the Des Moines River are being threatened by erosion during high flow periods. The stability of the lagoon and the potential for contamination of the Des Moines River increases the need for emergency streambank protection at this location. The opportunity exists to stabilize the bankline and to protect the lagoons from further erosion. The project was constructed in late 2002.

Summarized Financial Data

Estimated Federal Cost	\$157,000
Estimated Non-Federal Cost	\$77,000
Total Estimated Cost	\$234,000
Allocations through FY 2005	\$194,170
