Driftwood collection permitted in
shaded areas only.

Driftwood Cutting at Lake Red Rock

Your permit entitles you to cut and remove driftwood at Lake Red Rock on US Army Corps of Engineers managed lands. Absolutely no cutting or gathering of driftwood on DNR managed (Elk Rock State Park) or Marion County Conservation Board managed lands (Robert's Creek and Cordova Parks). Driftwood is wood that is dead and has been deposited by water. Your permit does not entitle you to cut and remove fallen timber or wood that is not driftwood. Keep your permit with you when you are cutting driftwood. The wood is for your use and not for resale. No off-road vehicle operation is permitted.

For more information, call: 641-828-7522 or 641-628-8690.
