

U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 22-SEP-2020

ORM Number: MVR-2020-01290-AM

Associated JDs: N/A Review Area Location¹:

State/Territory: IA City: Titonka County/Parish/Borough: Kossuth County Center Coordinates of Review Area: Latitude 43.240721 Longitude -94.037413

☐ There ar within the ☐ There ar area (col	re "navigable we e review area re "waters of the mplete approp	any kind in the entire revi vaters of the United State (complete table in section e United States" within C riate tables in section II.C ater features excluded fro	lean Water Act jurisdiction within the review
	Harbors Act o	f 1899 Section 10 (§ 10)	2
Rivers and H		§ 10 Criteria	Rationale for § 10 Determination
Rivers and F	§ 10 Size		A1/A
§ 10 Name N/A	N/A	N/A 104	N/A
§ 10 Name N/A Clean Water Territorial Sea (a)(1) Name	Act Section 4 as and Traditio (a)(1) Size	104 onal Navigable Waters ((a)	a)(1) waters) ³ Rationale for (a)(1) Determination
§ 10 Name N/A Clean Water Territorial Sec (a)(1) Name N/A	Act Section as and Tradition	104 onal Navigable Waters ((a)(1) waters) ³

new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district

to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not

D. Excluded Waters or Features

Excluded waters $((b)(1) - (b)(12))^4$:

Exclusion Name	Exclusion Size	Exclusion ⁵	Rationale for Exclusion Determination
N/A	N/A	N/A	N/A

III. SUPPORTING INFORMATION

- **A. Select/enter all resources** that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.
 - **_X**_ Information submitted by, or on behalf of, the applicant/consultant: *Application and project plans*, *September 2020*).

This information is sufficient for purposes of this AJD.

Rationale: It addresses that the Corps came out to his site years ago but does not provide any documentation on this.

___ Data sheets prepared by the Corps: *Title(s) and/or date(s)*.

V	Photographs: Digital	Clobo Aorial	April 27 2020	· OPM Acrial	Santambar	2020
^	Photographs: Digital	GIUDE ACITAL,	April 21, 2020	, ORIVI AEIIAI,	Septerriber	2020.

Corps Site visit(s) conducted on: Date(s).

Previous Jurisdictional Determinations (AJDs or PJDs): ORM Number(s) and date(s).

Antecedent Precipitation Tool: provide detailed discussion in Section III.B.

X USDA NRCS Soil Survey: Websoil Survey, September 2020

X USFWS NWI maps: ORM NWI Layer, September 2020.

USGS topographic maps: *Title(s)* and/or date(s).

Other data sources used to aid in this determination:

Data Source (select)	Name and/or date and other relevant information
USGS Sources	N/A.
USDA Sources	N/A.
NOAA Sources	N/A.
USACE Sources	N/A.
State/Local/Tribal Sources	N/A.
Other Sources	US Drought Monitor

- **B.** Typical year assessment(s): The US Drought Monitor states that the site is currently in a Moderate Drought but the May 15, 2018 US Drought Monitor showed the area was in normal conditions.
- C. Additional comments to support AJD: This project was previously assessed for wetlands on an unauthorized activity investigation in 2018 and no wetlands were found. The NWI does not show wetlands on this site. There is a stream to the east of this site but there are no waters on this site.

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
