

## U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

### I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 06-JUL-2021

ORM Number: MVR-2021-00793-SD

Associated JDs: N/A Review Area Location1:

State/Territory: IA City: Fort Dodge County/Parish/Borough: Webster County Center Coordinates of Review Area: Latitude 42.505578 Longitude -94.315202

There are wa area (comple	te appropriate ters or water feet table in sect	tables in section II.C). eatures excluded from ion II.D).	.B). an Water Act jurisdiction within t Clean Water Act jurisdiction wit	
§ 10 Name	§ 10 Size	9 Section 10 (§ 10) <sup>2</sup> § 10 Criteria	Rationale for § 10 Determin	nation
N/A N/A		g 10 Citteria	N/A	lation
	nd Traditional N	lavigable Waters ((a)( (a)(1) Criteria	1) waters) <sup>3</sup> Rationale for (a)(1) Determi	nation

<sup>&</sup>lt;sup>1</sup> Map(s)/Figure(s) are attached to the AJD provided to the requestor.

<sup>&</sup>lt;sup>2</sup> If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

<sup>&</sup>lt;sup>3</sup> A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

<sup>4</sup> Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

<sup>&</sup>lt;sup>5</sup> Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

### D. Excluded Waters or Features

Excluded waters  $((b)(1) - (b)(12))^4$ :

<b>Exclusion Name</b>	Exclusion Size	Exclusion <sup>5</sup>	Rationale for Exclusion Determination
2021-0793	14.7 acres	(b)(8) Artificial lake/pond constructed or excavated in upland or a non-jurisdictional water, so long as the artificial lake or pond is not an impoundment of a jurisdictional water that meets (c)(6)	All areas of stormwater detention were constructed in an upland area with the intent of draining adjacent infrastructure.

### III. SUPPORTING INFORMATION

Α.	Select/enter all resources that were used to aid in this determination and attach data/maps to the	ıis
	document and/or references/citations in the administrative record, as appropriate.	

_x_	Information submitted by, or on behalf of, the applicant/consultant: <i>Title(s)</i> and date(s). This information (is/is not/is and is not) sufficient for purposes of this AJD.
_	Rationale: All of the listed stormwater detention basins in the review area were constructed in uplands with the purpose of draining adjacent infrastructure that was constructed 2006-2007. Data sheets prepared by the Corps: <i>Title(s) and/or date(s)</i> .
_x_	Photographs: (Google Earth 2006, 2007, 2017, Topographic, Lidar) Title(s) and/or date(s).
	Corps Site visit(s) conducted on: Date(s).
	Previous Jurisdictional Determinations (AJDs or PJDs): ORM Number(s) and date(s).
	Antecedent Precipitation Tool: <u>provide detailed discussion in Section III.B.</u>
	USDA NRCS Soil Survey: Title(s) and/or date(s).
	USFWS NWI maps: <i>Title(s) and/or date(s).</i>
	USGS topographic maps: Title(s) and/or date(s).

### Other data sources used to aid in this determination:

Data Source (select)	Name and/or date and other relevant information
USGS Sources	N/A.
USDA Sources	N/A.
NOAA Sources	N/A.
USACE Sources	N/A.
State/Local/Tribal Sources	N/A.
Other Sources	N/A.

## B. Typical year assessment(s): N/A

C. Additional comments to support AJD: All of the listed stormwater detention basins in the review area were constructed in uplands with the purpose of draining adjacent infrastructure that was constructed 2006-2007

<sup>&</sup>lt;sup>1</sup> Map(s)/Figure(s) are attached to the AJD provided to the requestor.

<sup>&</sup>lt;sup>2</sup> If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

<sup>&</sup>lt;sup>3</sup> A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

<sup>4</sup> Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

<sup>&</sup>lt;sup>5</sup> Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
